Experience

UI/UX Engineer

HealthRecon Connect (Pvt) Ltd - June 2024 – Present
Context - A B2B RCM platform for healthcare providers focused on denial management and revenue optimization.

- After deeply analyzing user pain points in our current product, we pitched and secured business buy-in for intuitive solutions, which we are now implementing end-to-end.
- Architected an RCM automation platform that transformed manual claim resolution into strategic workflows, enabling revenue-critical escalations and delivering actionable insights through intuitive dashboards.
- For time-sensitive projects, I applied a strategic UX process to deliver high-quality outcomes quickly, meeting tight deadlines without compromising design integrity.
- We have proven the value of UX through real project impact and aligned the business to a user-centered process.

Analyst - Experience Design

Virtusa (Pvt) Ltd - January 2022 - June 2024
Context - Global IT services provider specializing in digital engineering for multiple industries.

- Revamped SLASSCOM website: +62% performance, +27% accessibility, +25% SEO, and streamlined UX.
- Designed a self-service AI assistant using chat history and code-builder features, improving developer support and reducing agent load.
- Expanded expertise in Healthcare, EdTech, and Fintech through advanced UX training and case study analysis.

Education

Bachelor of Science in Multimedia

NSBM Green University
May 2018 - December 2021

Diploma in Digital Marketing

Sri Lanka Institute of Marketing
2020 - 2021
